**Press Release**

**Chandigarh, February 8:- 29894 number of children vaccinated on the second day of the Pulse Polio Immunization Campaign brings the total coverage of 0-5 years old children to 107526 in two days. The deputed teams visited all the houses covering the children who could not be vaccinated during the booth activity conducted yesterday. In spite of the unfavorable climatic conditions prevailing in the city, the deputed teams worked tirelessly to trace each and every left out child of the area and vaccinate them.**

**The house to house activity was successfully conducted by the Health teams comprising of health officials, students, teachers and volunteers from all sections of society coming forward to contribute to the cause of eradication of Polio, for which, Health Department expresses its gratitude. Health Department appreciates the co-operation extended by the residents to the visiting teams by getting their children immunized and appeals the residents of the areas to be covered tomorrow i.e. February 9, 2010 to co-operate with the visiting teams.**
