Press Release

Chandigarh, February 9:- The third day of Pulse Polio Immunization Campaign concluded today covering 20146 number of 0-5 years children. The total coverage of the February round reached a whopping number of 1,33,711 in spite of the adverse climatic conditions. The activity was conducted over a period of three days with booth activity on first day and house-to-house coverage on the next two days i.e. February 8 & 9, 2010. Health Department's appeal to the residents was compiled with by the residents by cooperating in bringing their children to the booths as well as by cooperating with the teams doing house-to-house activity by getting their children vaccinated. The contribution of various NGOs, religious leaders, Municipal Councillors of UT for the mobilization of the children for vaccination at booths on booth day made the Health Department endeavor a huge success. The mission could not have been accomplished without the enthusiastic support of vaccinators from various schools, colleges, NSS volunteers, vaccinators provided by PGIMER and Nursing Colleges.
