**Eye Operation Theatre in Civil Hospital, Sector 22**

**Chandigarh 08<sup>th</sup> January 2018:** Eye Operation Theatre was operationalized in Civil Hospital, Sector 22, Chandigarh today. Patients will be given treatment through Suture less cataract surgery which is a solution to Reduce Worldwide Cataract Blindness.

Cataract is the commonest cause of avoidable blindness worldwide and can be treated with latest technique in cataract surgery.

This type of cataract surgery causes very little physiologic or psychologic stress when compared with other forms of surgery. In fact, it is possible to perform cataract surgery on people with severe, chronic ailments such as heart, lung and kidney disease without producing complications.
